Dear David,

The chair of our Board of Directors, Allan O'Bryant, has received your letter concerning Jack Moyer and the sexual abuse case brought to the attention of the school in 2004. Neither Mr. O'Bryant nor myself were in our current positions at the time, but I have done back to our files from this time period to check on the response of the school at that time.

Within these files, there is a letter from the board chair in 2004, Karen Thomas to Janet Simmons in which she states, " It has been our intent to deal with the issues in a straight-forward manner while protecting the privacy and sensitivities of individual victim." As a school, we remain committed to our continued support for any victims in this matter.

As a school, we recognize the issues brought to light by the recent events at Penn State and Syracuse, and we continue to monitor, through practice and policy, vigilance to provide an appropriate level of education, protection, and proactive measures to insure the safety of our students.

Thanks for writing and expressing your concern as alumni.

Regards,
