To: ASIJReportline@ropesgray.com

Hello Ropes and Gray,

I am a 1968 graduate of ASIJ who has been involved with Jack Moyer in various ways since 1962 as follows:

- 1962-63: 7th grade student in his geography/social studies class.
- 1966: Used his help/contacts to set up a summer program for boy scout treks to the Izu peninsula.
- 1974: Visited him at Miyakejima as part of a professional visit to Japanese national parks sponsored by the US National Park Service and Japan's Environment Agency.
- 2004: Helped Michele Connor and Janet Simmons locate other Moyer victims after their letter to the ASIJ community about the Moyer case.
- 2011-14: Correspondence with the school to try to get the directors to take responsibility and get help to all victims.

Attached are copies of the above-mentioned correspondence. I would like to help you with your investigation. If you would like to prepare questions for me based on this information, we can have a telephone discussion afterwards.

Best regards,

David R. Bruns
